

## ARSAM METAL

Ferroalloys · Silicon · Carbon · Specialty Chemicals

---

## Responsible Sourcing & Compliance

Transparent, traceable and compliant trade. Every shipment documented, every supplier qualified, every transaction aligned with international trade rules.

### Responsible Sourcing Principle

Qualified, multi-source supplier selection, a disciplined sourcing approach that reduces single-source risk.

### Trade & Sanctions Compliance

Commitment to international trade rules, counterparty (KYC) screening and document integrity.

### CBAM & Carbon Readiness

Embedded-emissions documentability for alloy and stainless producers selling to Europe; low-carbon grade options and a Carbon Passport pilot.

### Quality Management

ISO 9001-oriented processes and quality verified by independent laboratories / pre-shipment inspection.

### Data Protection (KVKK / GDPR)

Your quote and contact data is processed only for inquiry and shipment purposes, in line with regulation.

### Business Ethics

Integrity, transparency and avoidance of conflicts of interest, fair trade that respects the rights of all stakeholders.
